Represented by: Tomáš Hebelka, MSc, CEO  
(hereinafter referred to as „**Contracting Authority**“)

In Prague on 27<sup>th</sup> September, 2019

## **EXPLANATION OF TENDER DOCUMENTATION No. 1**

The Contracting Authority of the public contract „**Personalization Device for production of ID-3 travel documents**“ administered in the open procedure pursuant to Act No. 134/2016 Coll., on public procurement, as amended (hereinafter referred to as the “Act”) hereby, in accordance with Sec. 98 of the Act explains the tender documentation.

### **Question:**

The headline of chapter 6 in the Technical Specification requests "Color Inkjet". We would like you to doublecheck if page 3 of the booklets actually shall be printed in color. Today, page 3 of the Czech passport is printed in black only.

### **Answer:**

We use only the monochrome printing for textual information (diplomatic degree in the Diplomatic passport, Service passport or name, surname longer than 36 characters in the Traveler passport, etc...). We produce approximately 50 pieces per day of such a passports with the black inkjet print.

**For personalisation of current passport booklets is the monochromatic printer fully acceptable.**

**However the solution of inkjet print in new passport personalisation system must be ready for possibility of upgrade to colourfull CMYK printer in the future.**

Best regards,

---
