### **SUPPLEMENTATION OF TENDER DOCUMENTATION - III.**

The Contracting Authority of the over-threshold public contract

#### **„Computer to High-Security Plate/Film and relating Plate Processor for Wet Offset Plates“**

**“Osvitová jednotka a vyvolávací automat”**

being awarded in an open procedure pursuant to Act No. 134/2016 Coll., On Public Procurement<sup>1</sup>, as amended (hereinafter referred to as “Act”), hereby supplements the tender documentation in accordance with Sec. 99 of the Act.

#### **Question No. 1.:**

“I would like to ask you whether we can use a 1030x800 plate size instead of the required 1050x795 format to prepare a sample of the printing plate (AL plates offset plates)?

The image size will not be changed.”

#### **Answer to the question No. 1.:**

The Contracting Authority stipulated the format of printing data in the Tender Documentation, not the requested size of printing plates for purposes of testing.

The Contracting Authority states, that if the whole shape will be displayed on the plate and will be used the same type and quality of the printing plates as will be delivered in the performance of the public contract, it can be used a different format of printing plates than the stipulated format of printing data.

Suggested plate size (1030 x 800) is sufficient for full view of control shapes, therefore it meets the requirements to submit a sample for testing.
