EXPLANATION AND CHANGE OF TENDER DOCUMENTATION III.

The Contracting Authority of the over-threshold public contract called „**Device for hot foil stamping, embossing and die-cutting // Zařízení pro aplikaci hologramů, násek a výsek**” being awarded in an open procedure pursuant to Act No. 134/2016 Coll., On Public Procurement, as amended (hereinafter referred to as “Act”), hereby explains the tender documentation in accordance with Sec. 98 and 99 of the Act.

Questions about the Draft Contract - Article ‘VII. SHIPPING CONDITIONS’	
<u>Question No. 1:</u>	<u>Answer to the question No. 1:</u>
#4: “ <i>The parts, whose size does not exceed... load capacity of lifting platform of 5500kg,...</i> ”; The machine press is delivered on a special wooden pallet with a total weight of approx. 7500kg. Our engineers checked it and it is impossible for us to unscrew 2 tonnes of material and then pack it separately. How compelling or restrictive is your requirement to not exceed 5500kg?	<p>The Contracting Authority states that based on the received question, it is changing the wording in the Draft Contract. The changes are recorded as visible revisions in Annex 1 to this document.</p> <p>The supplier is obliged to use these revised documents in its tender (“<u>Annex No. 1 – Draft Contract rev2</u>”).</p>
<u>Question No. 2:</u>	<u>Answer to the question No. 2:</u>
#4: “ <i>The parts, whose size does not exceed... 2490mm height...</i> ”; The machine press is delivered on a special wooden pallet with a total height of 2550mm. How compelling or restrictive is your requirement to not exceed 2490mm?	<p>The Contracting Authority states that based on the received question, it is changing the wording in the Draft Contract. The changes are recorded as visible revisions in Annex 1 to this document.</p> <p>The supplier is obliged to use these revised documents in its tender (“<u>Annex No. 1 – Draft Contract rev2</u>”).</p>

<u>Question No. 3:</u>	<u>Answer to the question No. 3:</u>
<p>#2: “<i>The Contractor acknowledges that he has the obligation to obtain the necessary permits to enter the city centre, if necessary...</i>”; For a foreign, medium-sized company, it is extremely difficult or even impossible to obtain a permit without local support, possibly to be able to drive into a city centre with a heavy transport or even to have roads closed so that the machine can be unloaded. When we delivered a machine to the Hungarian Banknote Printing Shareholding Company in Budapest or to the National Bank of Serbia in Belgrade, the customer made that effort. As a state institution, it was no problem at all to obtain all the necessary authorisations and permits. Can this be adapted in the contract so that you take care of the possibly needed authorisations and permits?</p>	<p>The Contracting Authority states that based on the received question, it is changing the wording in the Draft Contract. The changes are recorded as visible revisions in Annex 1 to this document.</p> <p>The supplier is obliged to use these revised documents in its tender (“Annex No. 1 – Draft Contract rev2”).</p>

Annexes:

Annex 1 – “Annex 1_Draft Contract_rev2”

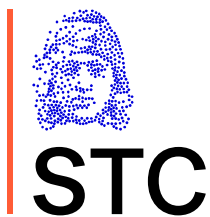

Conclusion:

The Contracting Authority does consider above mentioned alteration as a case where the scope of possible participants may be extended by the alteration or supplementation of the procurement documents, so the Contracting Authority extends the time limit for tender submission to be at least as long from the moment of sending the alteration or supplementation as the original time limit for tenders submission:

Time limit for the submission of tenders:

- **original time limit for the submission of tenders:** until 14.10.2024, 9:00 AM
- **new time limit for the submission of tenders:** until 12.11.2024, 9:00 AM
- **opening of tenders:** after the expiry of the limit for the submission of tenders
